

Montana Electronic Transcript Initiative

As part of the OPI's K20 Data Project, the Montana eTranscript Initiative establishes data linkages between K12 Education and post-secondary partners.

Through Parchment, the selected Partner, students will be able to send FREE transcripts.

Help your students achieve their dreams by making the most of their academic achievements. Mobile friendly ordering, an easy eCommerce experience, and online tracking help them on their way.

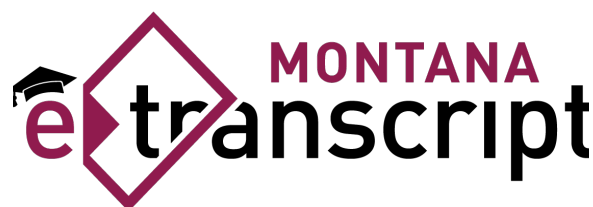

A No-Cost Solution

This eTranscript service is **free** of charge when transcripts are sent electronically to the following:

- Anywhere!

Transcripts are free to the student for up to two years following graduation and available for a nominal fee after that. Project funds subsidize transcript fees for students through December 2018.

You control the approval or hold of any and all Transcript requests. And every Parchment Member will have a dedicated Account Specialist for any questions!
